

CROWN JEWEL[®]

 Posturepedic[®]

Made for you

The signature of *perfection.*

Introducing the Crown Jewel® collection by Sealy Posturepedic, where exceptional innovation and craftsmanship work in harmony to create the ultimate sleep experience. Wake up every day feeling your best.

POSTUREPEDIC TECHNOLOGY

With our heritage in orthopaedic design, Sealy Posturepedic leads the way in sleep innovation. Combining years of research, we are proud to deliver the world's most advanced sleep system.

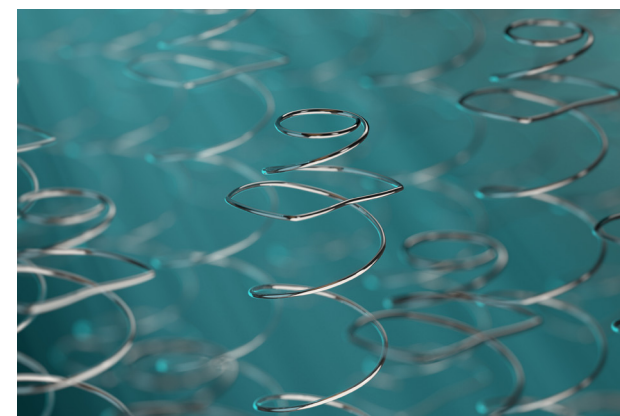

MADE BY HAND

Opulent damask fabrics, featuring SmarTex®, help to manage moisture and regulate temperature.

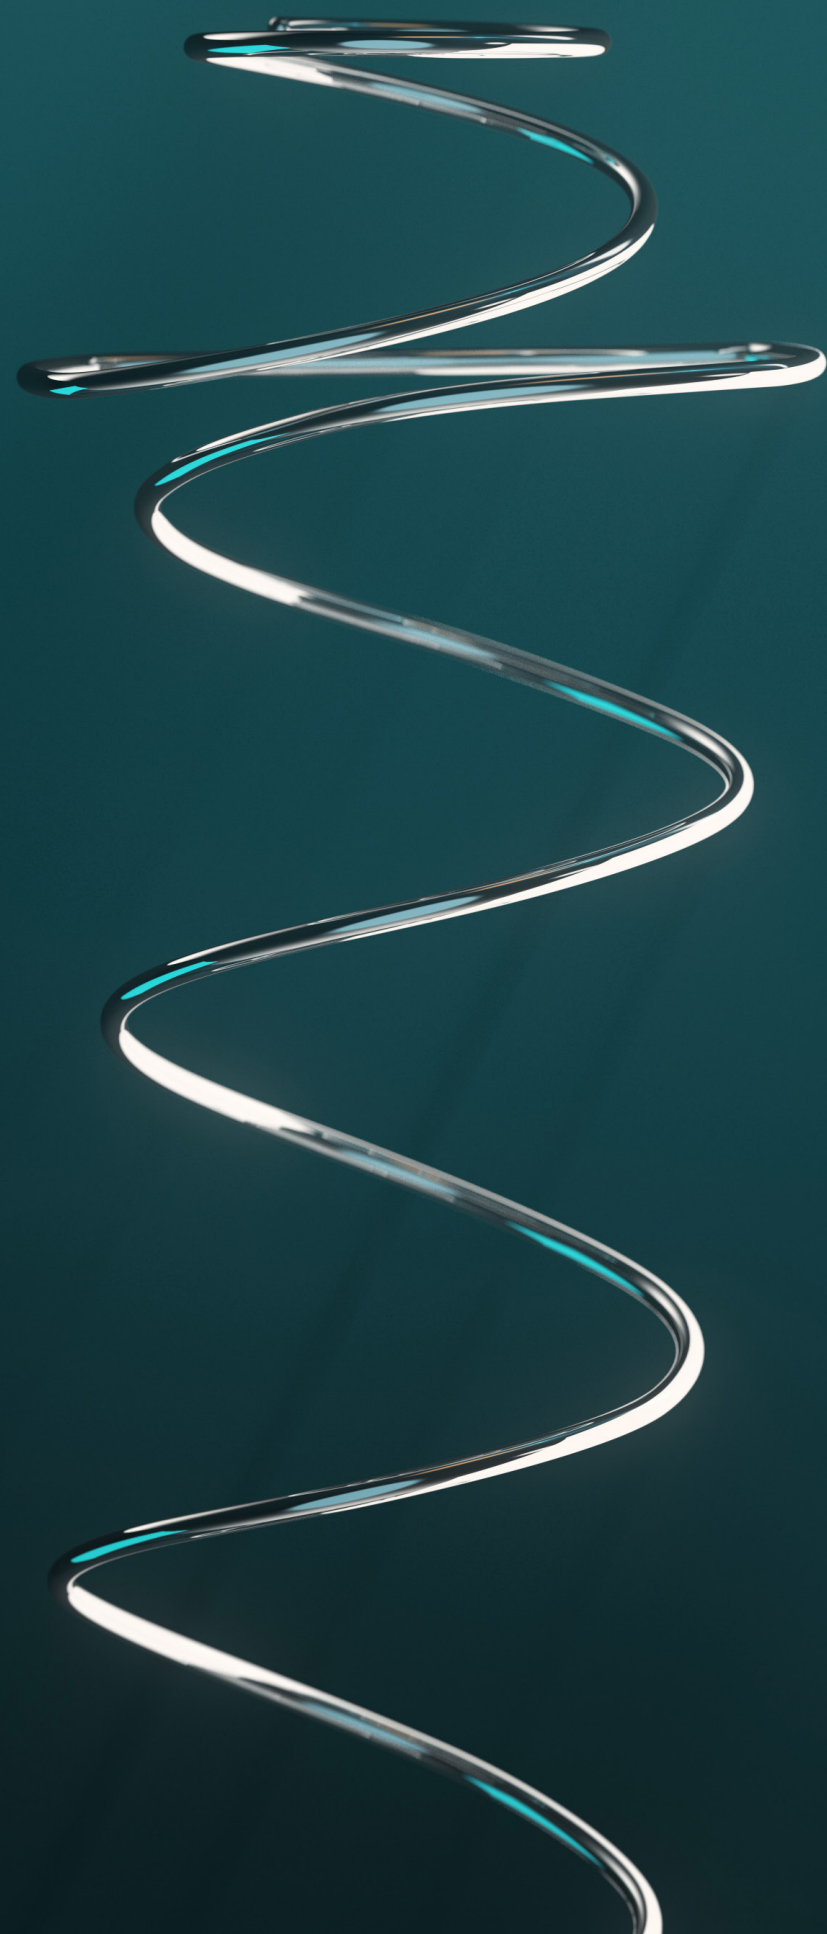

COMFORT BRIDGE

A sculpted layer, embedded with hundreds of micro-coils, transitions your body from the comfort layer to the support system, providing pressure relief.

ORTHOPAEDIC DESIGN

Experience our best with the Rest **SUPPORT**® system. Intuitive coils respond to your unique shape with three stages of precise support, to maintain your body's natural alignment.

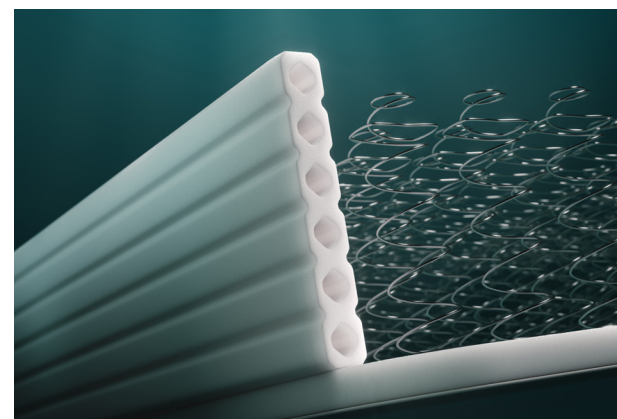

POSTUREPEDIC TECHNOLOGY

COMFORT LAYERS

Exotic natural fibres are combined with layers of deep, pressure relieving materials, allowing tired muscles to relax and recover.

REINFORCED EDGE SUPPORT

Our UniCased[®]XT edge wraps around the coil system providing a full sleep surface, increasing stability and providing support right to the edge.

DESIGNER BASE

Combine your mattress with our MicroTek[®] base, featuring unique, high-carbon support modules to absorb and disperse stress for longer-lasting stability and comfort.

The detail takes time.

You simply can't rush a masterpiece. With thousands of contact points and no corners cut, we spend dedicated days crafting your Crown Jewel® by hand.

Tailor your Crown Jewel®

CROWN JEWEL®

Everyone has a unique sleep profile, our customised beds are designed with you in mind.
